WHAT IS TIBETAN TSE DUP HEALING?

Cosmic is grateful to work with the best readers and energyworkers in Nashville. Among them is Tania Smith. She is a Tse Dup Lupon (soul healer and teacher) in the Tibetan Energy Healing system of Tse Dup Yang Bod and was one of the first practitioners, and the first non Tibetan teacher, of this Ancient Tibetan Soul Healing in the US.

Tse Dup Soul Healing is a practice rooted in ancient Tibetan healing techniques. It restores, strengthens, and deeply heals the soul and life force energy by addressing energetic imbalances caused by trauma, disease and karma. In Tibetan medicine, any illness is seen as a disruption in the internal energetic essence of the five elements: earth, wind, water, fire, and space. Tse Dup works to bring balance to these elements, that make up the universal energy, helping to reclaim and heal spiritual energy that has been lost or damaged.

Engaging in Tse Dup Soul Healing sessions, whether individually or in a group, can lead to the retrieval and healing of the soul and life force, which can positively impact physical health, emotional well-being, overall fortune and even lengthen the life span. For those who choose to study and make Tse Dup a daily practice, the results can

be profound. Spiritual awareness deepens on all levels, while intuition, precognition, and natural healing abilities are enhanced. This practice strengthens the connection with one's own inner wisdom, allowing for a more powerful, happy and conscious manifestation of life. In a world filled with mental confusion, Tse Dup Soul Healing offers a path to clarity and empowerment.

Tania will be starting a new 3-year training program for those wishing to become Tse Dup practitioners in 2025. To experience Tse Dup and gain a better understanding of the

work, she offers a monthly Tse Dup Healing event in-person and via Zoom. Scan the QR code to register.
